Program

ages up to 10

Introduction

This Hero Program is designed to glorify and spark the goodness and strength in children. The goal is to assist them to feel more empowered and positive about themselves and put these gifts into practice.

This world is filled with so much negativity and unfortunately the children are over-exposed to it. Mentorship is almost unheard of today. Therefore, the exercises are created so children can find their own unique attribute, and remind them as to how wonderful they are.

It may be used in many settings including home, schools, hospitals, children's clubs/organizations, classes, church groups and more. The lessons may be divided into daily, weekly, bimonthly or monthly activities, with individuals or groups.

As facilitators of any kind, whether teacher, parent, counselor, coach or therapist, we have a responsibility to ignite positivity. This alone, will create the change the world is yearning for.
